SUBJECT INDEX, VOLUME 57

Adrenal cortex
- effect of cortical steroids on reproduction in adrenalectomized rats, 1
- effect of steroids on copulatory response, 5
- altered function in presence of hypothalamic lesions, 46
- influence of epinephrine and cortisone on metabolism of hypophysis and hypothalamus, 64
- effect of extract on oxygen consumption of frogs, 70
- function during pregnancy and pseudopregnancy in rats, 114
- fetal-maternal interrelations, 147
- corticosteroid secretion in adrenal venous blood of hypophysectomized dog, assay for ACTH, 184
- morphine blocks stimulation of ACTH secretion, 205
- maintenance after ablation with 9 alpha halo and other steroids, 220
- pre-hibernatory variations in ascorbic acid content, 409
- ACTH and cortisone in experimental burns, 445
- role in response of plasma potassium in rat exposed to hypoxia, 450
- loss of glycogen content following stress and treatment with certain hormones, 492
- ascorbic acid depletion following stress in the infant rat, 497
- influence of citric acid cycle intermediates on the *in vitro*, metabolism of corticosteroids in ascorbic acid deficiency, 531
- effect of prolonged DOC pretreatment on liver of hepatectomized rats, 550
- action of human and rat liver slices on various cortical steroids, 580
- effect of different ACTH preparations on zona glomerulosa, 608
- determination of formaldehydogenic corticoids in guinea pig urine, 641
- reported inhibition of DCA-hypertension by antihistaminic drugs, 670
- effect of low pressure on hemopoiesis after ablation of, 676
- multiple responses in hepatic glycogen deposition assays using intact mice, 683
- comparative activities of Δ^{14} pregnadiene-21-OL-3, 20-dione acetate and DCA in rat, 700

Adrenal medulla
- histochemistry of noradrenaline in rats and mice 363
- epinephrine effects on glycogen in skeletal muscles, 393
- electron microscopy of, 621

Androgens
- effect on sexual behavior in guinea pigs, 139
- influencing renal β-glucuronidase response, 646

Estrogens
- hydrolysis of conjugates in human pregnancy urine, 87
- relation of vitamin B_{12} to stilbestrol stimulation of chick oviduct, 120
- effect on ovary of hypophysectomized rat, 193
- biogenesis in the pregnant mare, 200
- effect of chronic treatment on hamster testis, 255
- protein binding capacity, loss in rat hepatoma, 541
- relation of crystal size to estrogenic activity of parahydroxypropiophenone, 559
- metabolism of radioestrone in the rat, 692

Growth hormone
- stimulation of preputial glands, alone and with steroids, 25
- effect of S^{35} fixation in cartilage 76
- effect on nucleic acid and protein content of rat liver cells, 158
- diabetic activity in rats, a method of study, 272
- content of human plasma, 527
- study of role in pregnancy 748

Hypophysis
a new method of assay of thyrotrophic hormone, 19
diabetogenic action of prolactin, 56
staining with acid and basic dyes, 96
structure and function in rats with hypothalamic lesions, 302
dietary repair of defective lipogenesis and cholesterogenesis in liver of hypophysectomized rat, 316
morphine inhibition of release of ovulatory hormone, 329
mechanism of blockade by morphine atropine and barbiturates, 345
stimulation of release of ACTH by a neurohypophysial factor, 439
antigonadotrophic activities of quinones and related compounds, 466
response of blood corpuscles to x-irradiation after ablation of, 472
an improved method for assaying steroidogenic potency of ACTH, 594
control by hypothalamus, a study with combined tissue cultures, 599
identity of the argyrophilic cells in pars distalis of rat, 719
Hypothalamus
lesions affecting adrenal cortex and gonads, 44
lesions affecting pituitary structure and function, 302
lesions affecting thyroid function in dog, 355
control of anterior hypophysis, a study with combined tissue cultures, 599
thyroidal response to exogenous TSH in presence of lesions in, 755

Mammary glands
effect of estrogens and progesterone in rat, 33
hormonally induced growth and lactation in absence of thyroid, 153
succinoxidase and coenzyme A content after hormone stimulation, 231
Metabolic studies
effect of endocrinectomies on acetate incorporation into fatty acids *in vivo*, 505

Neurohypophysis
identification of vasopressin as a principle affecting work, 383
a factor stimulating release of ACTH, 439
oxytocic activity of diencephalon and tuber cinereum of normal and hypophysectomized rats, 658
development of hypothalamo-neurohypophysial secretroy system in chick embryo, 661

Ovary
as affected by estrogens in hypophysectomized rat, 193
response in immature chickens to avian and mammalian gonadotrophins, 705
effect of estrogen and relaxin on prepuberal pubic symphysis and uterus in mice, 730

Pancreas
histochemical demonstration of insulin in Islet cells, 419
selection of phosphorus in alloxan diabetes, 513
distribution of zinc-65 in the rat, 571
regional differences of the Islets, 588
Parabiosis
liver catalase in pairs with thyroid ablated in one, 109
Pregnancy
effect on inflammatory responses, 173
in relation to adrenal function, 114
fatal-maternal relations with respect to adrenal, 147

Relaxin
and estrogen in modification of pubic symphysis of mouse, 730
Reproduction
as affected by adrenal steroids in adrenalectomized rats, 1
as affected by 9α halohydrocortisones, 516
endocrine relationships in males of a relatively infertile strain of white leghorn fowls, 519

Sex behavior
copulatory reflex response to adrenal steroids, 5
as affected by stock, androgens, and caging, 139
effect of fish and mammalian neurohypophysial extracts and oxytocin on spawing reflex (Fundulus), 242
Steroids
cardiovascular-renal effects of 9α-chlorohydrocortisone, 10
effect on preputial glands, alone and with growth hormone, 25
effect on inflammatory responses during pregnancy, 173
conversion of testosterone-4-C^{14} to estrone in the pregnant mare, 200

effect of 9α halo and others on adrenalectomized dogs, 220
comparative effects of dihydrotachysterol and calciferol in rats, 236
interaction between hydrocortisone-4-C^{14} or progesterone-4-C^{14} and serum albumin, 456
detection of C-21 glycerol side chain steroids, 499

Testis and accessory organs in male
response to chronic treatment with different estrogens, 253
hormonal and nutritional influences on composition of, 286
effect of testosterone on muscle glycogen in alloxan diabetic rats, 291
quantitative study of spermatogenesis after hypophysectomy in rat, 369
nutritional and hormonal influences upon reproductive maturation and organ weights in rat, 399
endocrine relationships in males of relatively infertile strains of fowl, 519

Thyroid gland
a new method of assay of thyrotrophic hormone, 17
relation to liver catalase, 109
effect of thyroxin on phosphatase in pigeon skin, 129
effect of ablation on mammary growth and lactation, 153
TSH effect on *in vitro* uptake and conversion of I^{131} and release of organic-bound I^{131} in hypothyroid and euthyroid rats, 181
deiodination of thyroxine to triiodothyroxine by kidney slices, 338
function as affected by hypothalamic lesions, 355
status of function in relation to succinate oxidation by various tissues in rat, 414
studies on *in vitro* perfusion using radioiodine, 482
iodide and response to exogenous TSH in hypophysectomized, rats 502
biological activity of 0-methylthyroxine, 566
metabolism of diiodotyrosine not affected by salivary glands, 636
response to TSH injected in rats with hypothalamic lesions, 755
effect of acetic acid analogs of thyroxine and triiodothyronine on glycolysis in ascites tumor cells *in vitro* 756

Urine
hyperglycemic action of normal human urine, 322
